**Risk assessment**

SPMHS has undertaken a risk assessment to identify any potential harm to a child while availing of our services. This is available in the SPMHS Child Protection Policy.

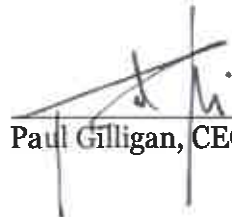

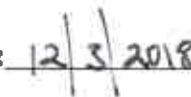

**Procedures**

SPMHS has a variety of policies and protocols in place to ensure the safeguarding of children and adolescents to whom we provide services (listed in the Child Protection Policy). On admission to Willow Grove Adolescent Unit, parents and young people receive an information booklet which provides an overview of the service and expectations of both service users, their families and staff as part of the service user's care and treatment. SPMHS operates a robust incident reporting system which ensures issues identified are addressed promptly and changes are implemented when required. All procedures and policies are available on request.

**Implementation**

We recognise that safeguarding is an ongoing process. Our service is committed to the continued operation of the actions in this child safeguarding statement and the policies and procedures that support safeguarding.

This statement will be reviewed annually or more frequently if required.
