

Join a **dynamic nursing team** delivering a **quality mental healthcare service**

Who we are

St Patrick's Mental Health Services (SPMHS) is Ireland's largest independent, not-for-profit mental health service provider.

Our vision and mission

Founded by Jonathan Swift over 270 years ago, St Patrick's is driven by the same vision demonstrated by Dean Swift in 1746. Grounded in a human rights-based ethos, we work to provide the highest quality mental healthcare; to promote mental wellbeing and mental health awareness; to advocate for the rights of those experiencing mental health difficulties; and to enhance our evidence-based knowledge through active and innovative and research.

It is an exciting time for St Patrick's Mental Health Services as we set out to achieve the objectives of our new 2023 - 2027 five-year organisational strategy, *The Future in Mind*.

Our strategy commits us to the development of our physical infrastructure, national network and operational excellence based on its four key activities:

Service Delivery

Service User Participation

Research and Training

Advocacy

What we do

We provide inpatient and Homecare through our three approved centres;

- **St Patrick's University Hospital (SPUH), Dublin 8**
- **St Patrick's, Lucan (St Edmundsbury), and**
- **Willow Grove Adolescent Unit, SPUH, Dublin 8**

Community and outpatient care including day programmes are provided through a national network of Dean Clinics and a central Wellness and Recovery Centre. Remote access to services is offered to service users.

Adult services include psychiatry, acute special care unit, treatment of addictions including addiction to alcohol, substances and dual diagnosis, assessment and treatment of the older person, specialist inpatient treatment of eating disorders, anxiety disorders, psychosis and mood disorders.

Willow Grove Adolescent Unit specialises in the treatment of children and adolescents in a dedicated approved centre based on the same site as St Patrick's University Hospital.

Why work with us?

At St Patrick's, we recognise that nurses are at the core of delivering a quality mental health service, so in turn we offer nurses a rewarding career with exciting opportunities for progression.

We regard our staff as our most important asset, enabling us to fulfil our mission to make a positive difference to the care of those experiencing mental health difficulties.

In 2018, St Patrick's became the first hospital or healthcare organisation to be awarded the KeepWell Mark from IBEC, a workplace wellbeing accreditation that helps organisations demonstrate their commitment to improving the lives of those who work for them. St Patrick's continues to retain the KeepWell Mark, and is committed to the ongoing development of our workplace wellbeing initiatives.
